Method Sig	Responsibilty	Instance Vars used	Other class method called	Objects used with method calls	Lines of Code
public String getName()	returns players name	playerName	N/A	N/A	3
public void setName(String newName)	sets players name	playerName newName	N/A	N/A	3
public Point getXyLocation()	gets the players coordinates	xYLocation	N/A	N/A	3
public void setXyLocation(Point newXyLocation)	sets the players coordinates	xYLocation newXyLocation	N/A	N/A	3
public Room getCurrentRoom()	gets the current room the player is in	curRoom	N/A	N/A	3
public void setCurrentRoom(Room newRoom)	sets the players current room	curRooom newRoom	N/A	Room	3
public String getPlayerAutoAssign()	returns the autoassignment	playerAutoAssign	N/A	N/A	3
public void setPlayerAutoAssign(String autoAssign)	sets the players autoassign	playerAutoAssign autoAssign	N/A	N/A	3
public String getPlayerRole()	gets the players role	playerRole	N/A	N/A	3
public void setPlayerRole(String role)	sets the players role	playerRole role	N/A	N/A	3
public String getPlayerGender()	gets the players gender	playerGender	N/A	N/A	3
public void setPlayerGender(String gener)	sets the players gender	playerGender gender	N/A	N/A	3
